THE HILUX LEGACY.

*The Hilux made its entry about five decades ago and hasn't looked back ever since. The first Hilux was born in **1968,** the year before humankind took its first steps on the moon. Through the years, the Hilux aged gracefully, holding a formidable reputation of toughness, power, luxury, and performance. The Hilux has sold over **20 million** units and has left its footprint in more than **180 countries.***

*For over **5 decades**, through 8 generations, the Toyota Hilux has been called - invincible, unbeatable, indestructible, tough, robust, a business partner and even a family member. It has won awards, conquered peaks and most importantly, captured hearts. The car stayed true to its **QDR - Quality Durability and Reliability**, improving it with every generation.*

*Fifty years is a long time to build any legacy, and the Hilux kept adding more and more stories that made its journey richer. The all-new Toyota Hilux is truly an experience and has now come to India, to make a statement of **Power, Sophistication and Durability** on Indian soil. The Toyota Hilux is a vehicle that's built with world-class engineering, enhanced safety, advanced technology, and best-in-class comfort to make life infinitely richer. This is a 4X4 that feels at home anywhere on the planet. A car that's designed to take you wherever you wish to go.*
